

ProjectHub

Embed your projects.

Our Team:

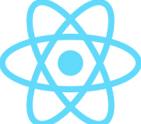

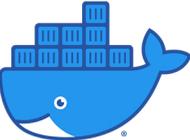

Kristian Vidovic | kv021 | MMB
David Redinger | dr080 | MMB
Michael Litschko | ml131 | MIB

The Problem:

There is no simple hub or option to embed your web based project in the stage or HdM infrastructure.

Our Solution:

We wanted to make your awesome projects more accessible and decided to create a hub, which lets you embed those in a clean and straight forward way. ProjectHub will automatically deploy your web based project in our kubernetes enviroment and give you the ability to embed it anywhere.

Our Techstack:       

ProjectHub

Embed your projects.

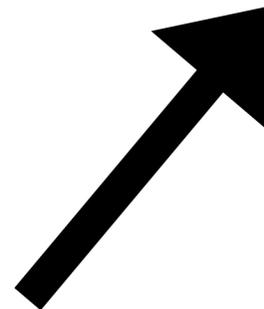

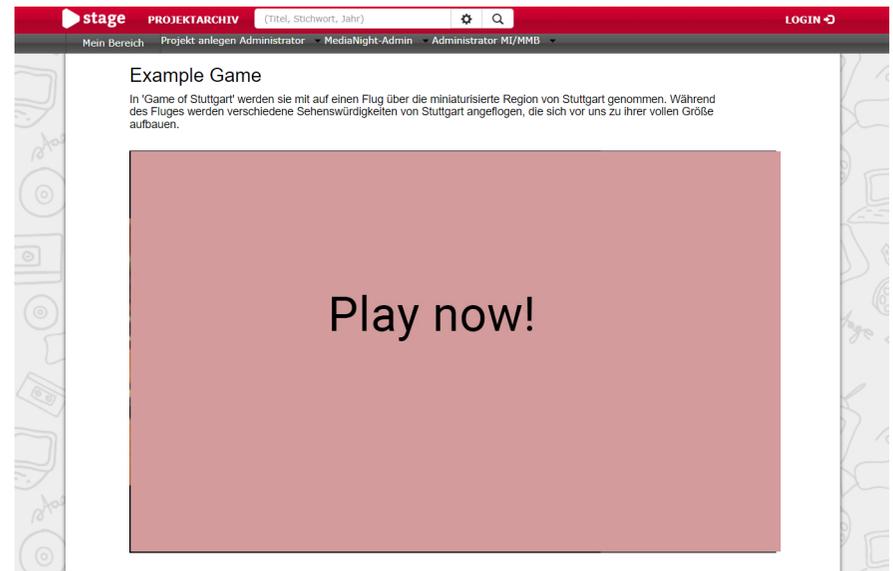

Embed your unity game!
